Wood Collection

The wood tile trend has been gaining momentum for several years, and now there are more styles and sizes to choose from than ever.

This design has inspired all sorts of new dimensions for tiles we've never seen before — the most popular being long narrow planks, as well as different colors, surfaces and finishes.

In this catalog we will show you our collection of wood tiles in a variety of designs, colors and surfaces of in a large variety of sizes and a multifunctional usage.

You can choose between narrow, long boards (15,5x60,5), which can be arranged in herringbone pattern or tiles with classic 30x60 size for your interior or bathroom, as well as porcelain tiles with structure for your garden or pool, in size 45x45.

The great thing about all the different styles and colors is that you can mix and match them in unique ways that would be next to impossible with real wood. Here are some of the most interesting wood-look tiles from KAI portfoglio - combinations are endless.

Моделите с дървесен дизайн са тенденция в керамичните продукти вече няколко години. Вдъхновени от този дизайн, бяха създадени серии керамични плочки с разнообразни размери, повърхности и цветове.

В този каталог събрахме нашата колекция от гранитогреси в богато разнообразие от дизайни, цветове и повърхности, с различни размери и с мултифункционално приложение.

Можете да избирате между тесни, дълги дъски (15,5x60,5), които се подреждат зигзагообразно или плочки с класически размер 30x60 за вашия интериор или баня, както и плочи за вашата градина или басейн, със структура и релеф в размер 45x45.

Комбинацията от цветове, повърхности и дизайни е безкрайна – развихрете въображението си и направете дома си едно уникално място.

Нашите предложения са само малка част от възможните комбинации – насладете им се.
