Floor tiles Collection

ORNAMENTS

Our new floor tiles Collection in size 46x46 is our answer to the ongoing market demand for tiles application for indoor areas such as: living room, dining room, drawing room and even the bedroom. By using DIGITAL PRINTING technology, we create ceramic tiles which can serve as an alternative to natural materials. In fact, in addition to their practical advantages, ceramic tiles have inexhaustible decorative potential.

The fine graphics with good resolution achieved through the Digital Printing technology allows us to reproduce a wide range of ceramic patterns that reflects the great diversity found in our natural environment: limestone, travertines, marbles. Our Collections also include products decorated with geometric patterns on selected marble textures that add to any setting elegant distinction. Practical combination between ceramic coatings properties and warm and natural wooden look (laminated parquet, geometric designs) potentiates different solutions to improve the aesthetic appearance of your interior design.

The products are manufactured in accordance with the European Standard EN 14411, Annex K, Product Group BIIb GL, ceramic floor for interior usage.

Новата ни колекция в размер 46x46 е нашият отговор на нарастващото пазарно търсене на подови плочки за вътрешни помещения, като всекидневна, трапезария, гостна и спалня.

Дигиталното принтиране ни позволява да възпроизвеждаме широка гама от керамични плочки, които отразяват разнообразието на природата - варовик, травертин, мрамор и много други. В допълнение колекциите включват геометрични мотиви, които придават подчертано елегантен и отиличителен характер на всяко помещение. Комбинацията от качества на подовите плочки и топлината и естествения вид на натуралните дизайни дават възможност за много и различни решения, с които да изградите един перфектен интериор.

Продуктите са произведени в съответствие с Европейския стандарт EN 14411, приложение K, Product Group BIIb GL, керамични подови плочки за вътрешна употреба.
