MIX & MATCH

The **Mix & Match** trend in interior design is known for its bold combination of diverse design such as marble, stone, cement, and wood. Instead of relying on bright color contrasts, the focus shifts to blending textures and surfaces – from the raw, industrial look of **cement**, through the elegant veining of **marble**, to the warmth and coziness of the **wood**. This interplay of elements creates a modern yet balanced and inviting atmosphere. It brings depth, character, and a sense of individuality to space. Mix & Match allows for the creation of interiors with a unique identity, where contrasts don't clash but complement each other in stylish harmony.

The **Concreto** series is inspired by the industrial style that is increasingly established as the preferred choice in contemporary interior design. It is characterized by minimalism and raw aesthetics, combining functionality and a modern look, giving spaces a sense of cleanliness and authenticity. It is available in three colors - natural, light beige, light grey and two surfaces.

The **Metropolis** collection stands out with an elegant design that combines rich detailing with minimalist aesthetics. The surface is soft and pleasant to the touch, while the three natural tones — grey, light grey, beige — are developed for maximum compatibility with other porcelain collections.

Both collections are available in a variety of formats, including the new 80×80 size, as well as the classic 60×120 and 60×60, all rectified.

The **Tilia** collection comes in three colors and offers three types of tiles in 60×120 R - smooth, structural and decorative chevron in size 20×120 R. These options can be used to combine natural freshness with maximum compositional freedom, providing contemporary style and character to your projects.

The **Concreto** and **Metropolis** collections blend effortlessly with other KAI series, reflecting a minimalist aesthetic that complements the Mix & Match trend. Together, they offer versatile options for creating sophisticated and balanced interiors.

The **Metropolis** collections can be combined with the warm wood hues of **Tilia**. Together, they offer versatile options for creating sophisticated and balanced interiors.

The cool colors of the stone and cement collections can be combined with marble range of products, such as **Pacific** and **Marble Gold**.

The **Intarsio** collection is a great example of the timeless parquet look and can be matched with elegant marble designs to elevate any interior.

CLASSIC NEUTRALS

The “**classic neutrals**” are a popular choice for interior design, offering timeless elegance. Classic neutrals like ivory, beige and greige are warm, relaxing and simple to complement with fabrics and furnishings.

Giving designers an opportunity for increased self-expression and creative freedom, mixing the designs creates a unique and personalized space. To effectively combine tiles with different designs, balance busy patterns with plain surfaces, you can use cohesive color palette and consider the surface and structures of the tiles. You can also mix finishes and special effects for added visual interest.

The most important tips for mixing different tile designs well are to create balance by combining small- and large-scale patterns.

Cohesive Color Scheme: Choose a dominant color and build around it with complementary tones or shades of the decor.

Neutral Base: Consider using neutral colors like ivory, greige and beige, then introduce bold design accents.

Limited Palette: Using a restricted color palette can help minimize clashing patterns and unify the overall design.

Accent Walls: Use a different tile design on an accent wall to draw attention.

Mixing and matching tiles with different designs, but in one tonality can add depth, texture, and functionality to any area, making it truly unique.

ARTSTONE collection with its neutral, stone look comes in large format size as 80×80, 60×120 and 60×60 rectified, in three natural colors - ivory, greige and beige.

Designed to complement the entire color palette, the two stone designs from the **STONEMIX** series serve as a decorative accent but can be used alone or in combination with any of the three base color lines of the **ARTSTONE**, **ARTDESIA** and **OASIS** series, to achieve a unique design touch.

The sleek look of concrete flooring of **OASIS** series is on-trend, and with its unrefined sophistication, appears to have true staying power. In addition to the three main colors, gray and cotto have been added, along with elegant geometric decor. Made of strong porcelain, our concrete-looking tiles give you the style you want, with the benefits of porcelain durability and simple maintenance.

The **ARTDESIA** collection is distinguished by its elegant design, inspired by French natural stones. Its distinctive characteristics make this product highly valued in the field of architecture and design. The proposed color palette is developed in four warm tones - ivory, beige and gray, plus bold and rich anthracite color. The design is extremely rich in detail, with a surface that is pleasant to the touch.

ETERNAL series embodies the classic travertine stone aesthetic found in ancient Roman monuments and temples, leaving a lasting impression for any space. Available in neutral color palette, with soft mat (R9) and smart surface (R10), adds a rustic charm to any space. Choose from standard 60×120 R sizes, following with 60×60 R and 30×60R with modular compatibility.

NATURALIS collection adds a soft, natural look to any design with a palette of neutral and organic tones including ivory, greige and beige colors. Accompanied by the elegant bold décor structure, the series offers both soft mat (R9) and smart surface (R10), in sizes 60×120/60×60/30×60 and 80×80, together with Outdoor 2 cm tiles in 60×60 size, all rectified.

All new series offer seamless design combinations with no boundaries. The entire collection is made with Smart surface™ technology, allowing the tiles to be used both indoors (R10) and outdoor (R11). In addition, there is an Outdoor 2 cm series in size 60×60.

*Някои декоративни ефекти могат да имат склонност към изкривяване. Те трябва да се посочват от производителя, като в този случай изпитването на рисоустойчивост не е приложимо./Certain decorative effects may have a tendency to craze. They are to be identified by the manufacturer, in which case the crazing test is not applicable.

Информацията в този каталог има ориентиrowъчен характер и съдържанието под формата на снимки, съвети, логистична и продуктова информация би следвало да се разглежда като източник на вдъхновение и цели да информира потребителите относно последните тенденции при изграждането на различни интериорни/екстериорни дизайни. Потребителят е нужно да се запознае с продуктовите характеристики и конкретните указания за използването на всеки продукт, които могат да бъдат намерени върху неговата опакова. При различия в предоставената в този каталог информация и други източници, потребителят трябва се обърне към съответния производител и/или пред представляващия го дистрибутор.

Цветовете са възпроизведени приблизително.

Таблиците с данни за съдържанието на опаковката и за теглото са актуални към датата на печат на каталога, поради което е възможно да са настъпили промени в съдържащата се в него информация.

КАИ си запазва изключителното право да променя и заменя отделни части от илюстрованите в този каталог композиции, включително и само частично, без задължение да предупреждава предварително своите клиенти.
